“ I was Danise Hairdresser for at least 20 Years But mostly we were good friends. I had just been with her the week before and we had talked about her life . Everything was coming together. She had bought a car that she was so proud of, her dog (Which she loved more that life) the two of them had just come back from their big adventure to Portland, She had just received a new phone and I had sent her a text and she was just learning how to send one to me . But most of all she was beyond excited that her mom was coming to butte. So now with her car and her mom so close she could be there every day to help take of her . I was shocked to hear the news . So unexpected as the last I had seen her she was beaming with joy and couldn't wait to be with her mother . I hope that she was able to be there with her mother a few days. She will be greatly missed at the Beauty Salon by all. She was always friendly and spoke to everyone . She will never be forgotten. Debra Seymour

Phyllis & I were working for Consumer Credit Counseling 20 years ago and Denise walked in. She was always bubbly, full of life and always seemed to be happy. Know you and yours are in my prayers.
