“ I met Patti in the late 1970s in Missoula and was impressed by her charm, and how she was always up to something in the world and in art. Over the years we kept in touch, and I last heard from her on October 2 when I dropped her a text when I was visiting my family in Butte. We couldn't visit then, but we were going to visit when we could, and now... On her birthday, I sent her a copy of a painting that I came across that reminded me of her. And then, the other night, my wife Pierrette and I were decorating our Christmas tree and came across the "Montana" ornament Patti made for us in 1992. What can I say? Both the painting I came across and the ornament she created are perfectly Patti.

“ Patti and I were friends for forty years. We met in graduate school at the University of Montana. The moment I saw Patti's work, I recognized what a wonderful artist she was. From set design to watercolors, Patti was truly gifted. She was also a kind and kindred spirit to her friends. Her sense of humor and wonderful, all encompassing laugh when she found something funny were two of my favorite things about her. As a friend, you could **DEPEND** on Patti. She was faithful and true. Patti had the very rare ability to be truly present, and I will miss her terribly.

“ *Patti was a dear friend who provided incredible support to our son Paul's artistic vision. She always was willing to share in her compassion for others. My favorite saying of hers, "Golly-goo!" will always be in my heart.*

“ *Very sad to hear about Patti. Her talents were diverse and extraordinary. Her love for her animals taught others to care for them as well. Rest in peace . I would like to be informed of any memorial as a way to say goodbye .*
